From Above

A freefall in my head, exiting A beautiful demand for me All are willing - to do what I please I'll always be the best, baby I will never rest, well, maybe What if I don't cry Do you want to die ? Are you who you are ? I'm never running into debt I have my future in my hands I can't I can't fall from above I feel it I flip over my life, sometimes A big smile on my face Sun shines Are you willing - to do what I please I'll always be the best, baby I will never rest, well, maybe What if I don't cry Do you want to die? Are you who you are ? I'm never running into debt I have my future in my hands I can't I can't fall from above I feel it When you look into my eyes I make you paralised You feel it inside I wanna be a part of you I wanna get the smell of you I want you, I want you And then I feel complete I'm never running into debt I have my future in my hands I can't, I can't fall from above I feel it

I'm never running into debt I have my future in my hands I can't, I can't fall from above I feel it

I'm never running into debt I have my future in my hands I can't, I can't fall from above I feel it **Die Happy**
