

# Mesmerized

Die Happy

Flying through another sphere  
(Between reality and dream)  
Not even trying to interfere  
(Try to interfere with my soul)  
You are with me, that's for sure  
(I saw you flying with the birds)  
I won't leave you anymore  
(A total eclipse of the moon)  
The spring will kill the winter soon  
(I see the sparkles in your eyes)  
The summer sun will hide the moon  
(I hope)

I wanna play god tonight  
Watch my ego stand up right  
Easy to try  
I got you mesmerized  
I'm ready to dream tonight  
I'm gonna catch the butterflies  
Together again  
You got me mesmerized

Flying through another sphere  
(Between reality and dream)  
Not even trying to interfere  
(Try to interfere with my soul)  
On your shoulders I will ride  
(I saw you flying with the birds)  
All the nightmares step aside  
(Step aside)  
They say love's nothing but a word  
What an information  
They say that love can only hurt  
I don't believe it  
Where would we end up in this world  
Without destination  
I don't agree
