

Sweet Sensation

Die Happy

Push the button if you feel okay
Than you can finally get in
I'm really happy that you found the way
'Cause everybody loves Berlin

Left- hand is heaven
And right is hell
Riding this roller - coaster
Up and down, up again

Sweet sensation
Turn me upside down
Flying with a fascinatig charm
Time runs backwards as the night
Doesn't let you end this flight
Sweet sensation
Turn me upside down

Don't even think about another day
That is our family suprise
Lay back and listen what I gotta say
Turn off the electronic device

Left- hand is heaven
And right is hell
Riding this roller - coaster
Up and down, up again

We sway into a cotton cloud
Headlong, loosing gravity tonight

Countdown is running like champagne
The new world we built is not the same
Got a time machine, got the fastest plane
We will come again, come again,
come again

Our life will never be the same
