

# Wanna Be Your Girl

Die Happy

I can see your hungry eyes slide up and down  
And all around me  
Go for the maximum, I gotta say you're a blast,  
So come and show me

I kind of knew what to do, wearing what I wear,  
My little black Ah...  
Your hot lips on my ear whisper:  
"Meet me on the 21st floor!"

When you undress me  
I'm wearing just your tie

I really wanna be your girl  
I know exactly what you need  
I really wanna be your girl  
Now or never never never

It feels like someone blew my mind on the elevator Ground,  
Baby - you know  
You really are my shooting star and I am your guitar,  
playing solo  
I am your prisoner now my fingers kind of ride  
down your back Ah...  
Your hot lips on my ear whisper:  
"Welcome to the 21st floor!"

When you undress me  
I'm wearing just your tie

I really wanna be your girl  
I know exactly what you need  
I really wanna be your girl  
Now or never never never

I don't wanna wait  
I don't wanna dance  
I don't wanna talk to all your friends  
All I wanna do is play around with you

I really wanna be your girl  
I know exactly what you need  
Baby are you ready for me  
Now or never never never

I really wanna be your girl  
I really wanna be your girl  
I really wanna be your girl  
Now or never never never
