

Rise Up

Die Krupps

Rise up-Hysteria

You have to ask yourself are you ready for this

Is the faith in yourself or in somebody else

Rise up-Hysteria

Can you rush faster than the juice in the vein

Can you stop a bullet when the gun is at your head

Why don't you ask me - I will tell you

Why don't you follow me - I will show you

Would you steal my money just to crack your pain

Would you pull the trigger even though you're dead

All that you dreamed is over - forget the love you sold her

Rise up - Hysteria

You disgrace me and you abuse me

Why don't you leave me - I can't help you

Because I'm tired nothing left

I feel old, not a cent

I want out - had enough

I want out - had enough

Rise up - Hysteria

You have to ask yourself are you ready for this

Is the faith in yourself or in somebody else

You have to ask yourself are you ready for this

Is the faith in yourself or in somebody else

Rise up - Hysteria
