The Dawning of Doom

Die Krupps

Back in black But no heads are turning Back in black No one came to see Back in black Are they still yearning Back in black For eternity Can't escape it Hide away from it There's no light At the end of the night (repeat) The dawning of doom It was wrong to assume Won't end the night Ruled by your fright Silent attack The shadows are talking Silent attack No one can hear Silent attack The shadows are walking Silent attack In the night of fear Can't escape it Hide away from it There's no light At the end of the night (repeat) The dawning of doom It was wrong to assume Won't end the night Ruled by your fright
