

## Never Forget

Diecast

You take, you take innocence  
And give it such a twist  
Life must be fought head to head  
If you are going to win  
I see, I see all the pain  
That causes misery  
Time and time again  
We must face all that's beckoning  
I believe in, I believe in, I believe in  
Ourselves to take what is thrown our way  
I believe in, I believe in, I believe in  
The one desire to never fail  
On broken legs I stand  
Salute with bloody hands  
I've signed my fate  
A sea of endless cries  
True honor never dies  
Never forget, never forget, it's not too late  
Divide, divide, everyone  
A will to segregate  
Never believe when you read  
Their string of bullshit  
Don't give, don't give into  
What they are forcing  
You must re-enforce  
What you know is true  
I believe in, I believe in, I believe in  
Ourselves to take what is thrown our way  
I believe in, I believe in, I believe in  
The one desire to never fail  
Re-enforce everything you know  
It is our tomorrow  
Re-enforce everything you know  
It is our tomorrow
