

# These Days

Diecast

Come into my own  
Come into my own  
Look inside myself  
See the path that I've chosen  
It's time for me to lose the pain I've found

Hating every day  
Never lived for the moment  
I want to scream until this cell corrodes  
I've thrown it all away  
I've thrown it all away  
It's time for me, to take this back myself

These Days, are all gone  
Waking to the madness  
In time to see, the only life I'm living for  
These Days, are all gone  
Living in the darkness  
I walk alone  
(On my own)

Look the other way  
Never solved the weakness  
Of living life in chains that drag me down  
Running through the maze  
With no sense of direction  
Can't give in until I find a way through

I'll take this, bullet between the eyes  
I'll take this, now is my time  
I'll take this, bullet between the eyes  
I'll take this, it's my time

These Days, are all gone  
Waking to the madness  
In time to see, the only life I'm living for  
These Days, are all gone  
Living in the darkness  
I walk alone  
(On my own)  
(all alone)

Come into my own  
Come into my own, its time for me  
These Days, are all gone  
Now its my time, to come into my own  
These Days, are all gone  
Now its my time, to come into my own
