Dierks Bentley

West, on a plane bound west I see her stretching out below Land, blessed mother land The place where I was born

Scars, yeah she's got her scars Sometimes it starts to worry me Cause lose, I don't wanna lose Sight of who we are

From the mountains high To the wave crashed coast There's a way to find Better days I know

It's been a long hard ride Got a ways to go But this is still the place That we all call home

Free, nothing feels like free
Though it sometimes means we don't get along
Cause same, no we're not the same
But that's what makes us strong

From the mountains high To the wave crashed coast There's a way to find Better days I know

It's been a long hard ride Got a ways to go But this is still the place That we all call home

Brave, gotta call it brave To chase that dream across the sea Names, and they signed their names For something they believed

Red, how the blood ran red And we laid our dead in sacred ground Just think, wonder what they think If they could see us now

It's been a long hard ride Got a ways to go But this is still the place That we all call home

It's been a long hard ride And I won't lose hope This is still the place That we all call home
