

# Not Through Loving You

Dierks Bentley

It's dark outside my window and cold without you near  
I keep thinkin back on the times when you were mine  
But rings and dreams don't matter cause I know you're with him  
tonight  
And you've already left without a fight

What can I do to make you believe my love is true  
What can I say to keep you from walkin away  
How can I make my heart believe we're really through  
When it's not through loving you

The dawn will bring a new day and I suppose the sun will shine  
But it won't bring back the light in my life  
Cause I'm afraid I've waited too long to tell you how I feel  
It's sad to think I lost you cause I couldn't lose my pride

How can I make my heart believe we're really through  
When it's not through loving you
