

With the Band

Dierks Bentley

My daddy hated that rock and roll
So I know I wasn't supposed to go
To the loud devil music show
But I wound up in the snake pit with my best friend
And when the lights came up
We both decided that we'd try our luck
And gettin' back to where the real show was
We were backstage under age hangin' with the drummer
When a big dude attitude grabbed me by the collar
I looked at him and said, "its all good brother"

I'm with the band
Hired on as a local stage hand
The one in charge of the microphone stands
And the lead singer told me to get one
In his dressing room
We might even have a beer or two
Don't worry bout the backstage pass
Man its cool...

I'm with the band
I'm with the band

I cant believe we made it this far
Country singin' bangin' loud guitars
The biggest stages to the smallest bars
We were cold beer drinkin' what was thinkin'
Just the other night a the after party
Rockin' just right
This little country girl caught my eye
She was backstage legal stage
Hangin' with the drummer
When a big dude attitude grabbed her by the collar
I looked at him and said, "its all good brother"

Shes with the band
Hired on as a local stage hand
The one in charge of the microphone stand
And the lead singer told her to get one
In his dressing room
We might even have a beer or two
Don't worry bout the backstage pass
Man its cool...

Shes with the band

Well tomorrow its another town,
But you know we like the party crowd,
So if you got the right stuff we'll meet you on the bus
But you better get the lingo down

Just tell him
That your with the band
Hired on as a local stage hand
You know we gotta lot of microphone stand
And the lead singer told you to get one
In his dressing room

We might even have a beer or two
Don't worry bout the backstage pass
Y'all its cool

[Repeat x2]
Your with the band
Your with the band
