

# The Oceans Of Filth

Dies Irae

In a mortal embrace  
The giants are met,  
Fighting for dominion  
I am the judge and the end  
And death I became,  
Destruction of all the worlds  
When the time is ripe  
I shall spit out  
The plague from my guts

I am the day that passed  
The eternal frost of your soul

The final cry of the fading life  
Shall the universe bear for all times  
Into the black void's infinity  
To be the warning for other deities

I am the day that passed  
Future is my mother  
And dusk is my father  
I am the eternal frost of your soul

United with chaos  
All-knowing and ruthless  
I am the judge and the end  
The destruction of the worlds

I am the day that passed  
The eternal frost of your soul

The oceans of filth  
Shall dim the glow of all the suns
