

Here's To You

Here's to you: and all your loving thoughts
Here's to you: you're such a fucking bore

Here's to you for bringing me down
Here's to you I'm glad you're gone now
Ain't it true what comes round goes around
Here's to you

Lured me in and then you lead me on
Used me up to get just what you want
Shards of sweat will cut ten-fold
When you realize you are all alone

Here's to you for bringing me down
Here's to you I'm glad you gone now
Ain't it true what comes round goes around
Here's to you

I always thought I was number one to you
Looking back I never even was your number two
