

She's All Mine

Diffuser

When the sky is dark enough
You can see her glowing like an angel does
She come and goes with the flow
She comes and goes with out a worry I the world

She's all mine
I never thought love could come back around again
I'm in too deep I can't retreat
She makes me feel just like I'm a kid again
She's all mine

I can't remember what its like
Living day to day without her in my life
She comes and goes with the flow
She comes and does without a worry I the world

She's all mine
I never thought love could come back around again
I'm in too deep I can't retreat
She makes me feel just like I'm a kid again
She's all mine

She fell into a hole inside my heart
I have to be the luckiest by far
I know that she is all I ever want
And all ill ever need

She's all mine
I never thought love could come back around again
I'm in too deep I can't retreat
She makes me feel just like I'm a kid again
She's all mine
