

# As I Am

Diggy Simmons

Take me as I am  
Or you can have nothing  
Nothing at all

Never understood why  
Discrimination existed  
Amongst us people when  
All of us wanted to be  
Taken equal not for the  
Color of our skin or the  
Fact that we fit in criteria  
Should be based of whats in  
The heart mind and soul and where  
We want to go cause if we caught  
In the past how we gonna reach our goals  
People be so concerned about the cons  
Instead of the pros that the preconceived  
Notations be blocking out of my flows  
They be acting like they know so they real  
Quick to throw it out to term about a kid  
Or the numbers in his bank account I'd  
Appreciate it if you listen then open ya  
Mouth feel alot better if you knew what  
You was talking 'bout just a youngin  
Grindin feeling inside that he hasn't  
Got his point across after he moved his  
Tums ? tellin people he's a normal kid  
Following dreams aposed to

So why don't you take me  
As I am or you can have nothing at all  
So take me as I am or have nothing at all

Just looking around at all the people  
That's around no of em was with me though  
Months ago but tellin me now the way  
I should go or the things that I should put  
Out when its expression to me you can't tell  
Me how the ways the ropes or being the  
D- I- double g - Y the little nigga that's known to be fly  
But alot of the time he just gotta swallow  
His pride despite of all the people that's  
Making him feel deprived of a fair shot just  
Because of where he came from labeling  
What I am when you ain't even hear a taste of ?  
I done heard it all so ya 2 cents won't hurt none  
And I know that I'ma keep going with it  
And I know the ridicule I'm rolling with it as long  
As I'm taking for who I am and where I'm going  
That's whats important to my time

So why don't you take me  
As I am or you can have nothing at all  
So take me as I am or have nothing at all
