Dj Premier
Dj Premier,
Premier, Dj Premier, Premier, Premier,
Dj Premier
Step in... like you hide in me really
Inspired empires in the city
Now celebrate... till you're busy
As you step inside this elevator with me
Is going up the microscope even bigger now,
Enshrined up they try to break my spirit down,
I won't cry don't... with the losers
And still I rise like Jesus on the Judas
I'm talking here pop royalty
... I promise to give all of me
All the hard work, pain and the sacrifice
So you could the presence even if in the after life
Be... focus on... feel like in fifteen going on thirty,
I just got the vision... before you was missin' now,
Fool for thought, you can do the dishes now,
Now... down, quiet on... tearing on the clouds,
It's getting high, I see the sky more,
Good night y'all, this is my floor, my floor,
Good night y'all, this is my floor.

Yeah, Diggy, yeah, Diggy, you kill em.
I'm a keep the tempo going just like this, man
That elevator music is the joy right there
And I like this over here, no doubt man
Ooh man, we got to bring another one.
