

# Fall

Diggy Simmons

Who said enough was ever enough?  
Will we let them make the rules for us?  
And you know we shine like the sun  
So put it in drive cause we're on the run

So let's break all the rules  
I want you to hold me down like you love it  
Kissing and touching all in public  
It's like a scene from a movie, yeah  
And we ain't worried 'bout nothing  
We so high think I'm buzzing now

Since we on the edge, we should fall, fall, fall  
No stopping us we should fall  
Baby we should fall, fall  
Fall in love or whatever

We never pick up when they call (no no)  
We don't got time to get involved  
Too busy running this world like we should be  
And God only knows our destiny

So let's break all the rules  
I want you to hold me down like you love it  
Kissing and touching all in public  
It's like a scene from a movie, yeah  
And we ain't worried 'bout nothing  
We so high think I'm buzzing now

Since we on the edge, we should fall, fall, fall  
No stopping us we should fall  
Baby we should fall, fall  
Fall in love or whatever

We'll never apologize, we'll never apologize  
Ah, they saying that we moving like we in a race  
Probably shouldn't make it cause we didn't wait  
But I told 'em to ventilate  
Let it breathe if it's wrong let it sink girl  
We gonna run the world like we suppose to  
They think local, we think global  
Your girlfriend saying they don't know you  
Use to soul food now you used to Nobles  
You learning all types of new things  
I know they mad you my new thang  
Change ya view, now ya view changed  
Uh-uh damn girl you ain't nothin' to Wu-Tang

Since we on the edge, we should fall, fall, fall  
No stopping us we should fall  
Baby we should fall, fall  
Fall in love or whatever
