

# Can't Sleep, Can't Breathe

Digital Daggers

Dire straits and dirty consequences  
An invitation to your personal disaster  
It's a point break  
Another guilty conscience  
And I won't stop you til you get just what you're after

I'm taking you down with me  
I'm taking you down with me  
Til you...

Can't sleep, can't breathe  
You met your enemy  
Can't sleep, can't breathe  
Won't get no peace with me

You tried to tempt fate, be careful what you wish  
I'll take you deeper and strip you of salvation  
It's a crusade to bring you to your knees  
It's what you wanted, your last manipulation

I'm taking you down with me  
I'm taking you down with me  
Til you...

Can't sleep, can't breathe  
You met your enemy  
Can't sleep, can't breathe  
Won't get no peace with me

The lower you go the less that you'll know  
You're sinking to the bottom now  
You're losing control  
The lower you go  
You're sinking to the bottom now
