

Feel Like Falling

Digital Daggers

A sudden spark ignites a sea of diamonds
And from the dark a light breaks the silence
We made a tear in time with love like lions
A simple spark
Ignites
Ignites

Release
Let it feel like...
Feel like falling
Release
Oh, let it feel like...
Feel like falling

An echo of a sigh deep inside us
Tensions come collide where none can find us
I will hold them tight and sound the sirens
An echo of a sigh
Inside

Release
Let it feel like...
Feel like falling
Release
Oh, let it feel like...
Feel like falling

In this time
In this moment
We could crash together
I come alive
In slow motion
Make it lost forever
I come alive

Release

Release
Let it feel like...
Feel like falling
Release
Oh, let it feel like...
Feel like falling
