

Human Emotion

Digital Daggers

Never again
With your human emotions
I won't take the hate
From your heart
I'll take my chances
Outside of your kingdom
You know when I step
I won't start

I long to be
Where the stars still shine brightly
You know they won't breathe
Where you are
I try to run
But my feet move too slowly
And I feel the earth
Fall apart

[CHORUS]
Human emotion
Set it free
Piece by piece
Let love lead
Piece by piece

Never again
With your better convictions
I won't let the live
In the light
Severed ties
Leave you here in your fiction
Alone where the dreams
Only die

[CHORUS]
Human emotion
Set it free
Piece by piece
Let love lead
