

Set You Straight

Digital Daggers

Who's got you now?
Who's goin' to save you from yourself?
Come find you... rewind you
Who's got you now?
Who's got the better master plan?
Come for you... restore you
I'll change the game before you can
When every back is turned
'Cause you refuse to learn
Whose side you're really on
Chorus:
You'll march along the which way
You swallow every word they say
When it all goes down
Who's goin' to come to set you straight?
You'll march along to your fate
You try to change but can't escape
When it all goes down
Who's goin' to come to set you straight?
Who's got your heart?
Who showed the way, the minute stop?
We'll find you... unbind you
Who's got your soul?
Who took it out of your control?
Who saved you? Enslaved you?
And gave away what matters most?
When every back is turned
'Cause you refuse to learn
Whose side you're really on
Chorus:
You'll march along the which way
You swallow every word they say
When it all goes down
Who's goin' to come to set you straight?
You'll march along to your fate
You try to change but can't escape
When it all goes down
Who's goin' to come to set you straight?
When are you honest in this race?
When you're too blind to breathe
When you're too broken to speak
Who's goin' to set you free?
Chorus:
You'll march along the which way
You swallow every word they say
When it all goes down
Who's goin' to come to set you straight?
You'll march along to your fate
You try to change but can't escape
When it all goes down
Who's goin' to come to set you straight?
When every back is turned
'Cause you refuse to learn
When it all goes down
Who's goin' to come to set you...
Who's goin' to come to set you straight?
