

Surrender

Digital Daggers

Secret, hidden underneath it
Trying hard to keep it
Safely out of reach

Creeping, I can feel it breathing
Coming to the surface
Find me in my dream

Sweet despair
Feel you devour me, oh
Silently, oh you carry me home?

Taken down
I give in to
I can't disguise
Ooh, I surrender
Ooh, I surrender

Broken down
I give into
I cannot hide
Ooh, I surrender
Ooh, I surrender

Locked in, buried under my skin
Writing on the whispers
Restless in the wind

Hunted, I can feel it coming
Keep me under cover
In what could have been

Sweet despair
Feel you devour me, oh
Silently, oh you carry me home?

Taken down
I give in to
I can't disguise
Ooh, I surrender
Ooh, I surrender

Broken down
I give into
I cannot hide
Ooh, I surrender
Ooh, I surrender

Don't make a sound now
Don't make a sound now
Maybe it won't find us after all
Carry my home...

Taken down
I give in to
I can't disguise
Ooh, I surrender

Ooh, I surrender

Broken down
I give into
I cannot hide
Ooh, I surrender
Ooh, I surrender

Don't make a sound now
Don't make a sound now
Ooh, I surrender
Ooh, I surrender

Don't make a sound now
Don't make a sound now
Ooh, I surrender
Ooh, I surrender

Broken down,
I give in
I give in

Ooh, I surrender
Ooh, I surrender
