

Shut up, listen to me  
I'm sick of everything  
I think it might be time to kill the chaos killing me  
Cause something's just not right  
I think I'm losing my mind  
Get back, I'm ready to go get back, I might explode get back  
I'm telling you losing control

I'm on a downward spiral  
Past the breaking point, I've finally hit the wall  
A collision course for disaster  
Don't give a damn no more, I'm just sick of it all  
I'm at the breaking point  
I'm at the breaking point

Stand up, just look at me  
And tell me what you see  
Besides a man on the brink of insanity  
I'm off the deep end now  
I think I'm freaking out  
Get back, I'm losing ground  
Get back, I'm breaking down  
I'm telling you I'm dangerous now

I think I'm freaking out  
I'm finally freaking out  
I think I'm breaking down
