

Forget You

Digital Summer

Now that I'm sober
I'm finally making up my mind
I can see who you really are
How the hell could I be so blind
You think you're so fucking innocent

You think you're so fucking innocent
Shut your mouth, I'm done listening to you
It's over, it's over, I've had enough were through
I'm taking back the person that I used to be
Before these scars, before your lies so fuck you, forget you, goodbye

Take a swing I dare you
But you better be prepared
There's no telling what the hell I might do
I'm at the point that I just don't care

For the last time, goodbye
For all the bad times, goodbye
For every moment that you made me regret I'm finally saying goodbye
