

# Hostage

Digital Summer

It's alright to hate me  
I don't mind if you leave  
But it's not alright for you to say you love me

And this time  
I've finally had enough  
Cause I've tried  
I should've given up  
Now I'm just another casualty

Take what you want  
Just let me go  
Take what you need  
And leave me alone

I don't wanna be the hostage anymore  
We both know how it ends and been there before  
I don't wanna be the victim of this pointless game  
Cause over and over it's always the same  
I don't wanna be the hostage  
Hostage

Damage that we've done  
Has left me so numb  
I'm a prisoner to your manipulation

And I don't care now  
Whatever I have to do  
To find a way out  
To escape from you  
And all you've put me through

Take what you want  
Just let me go  
Take what you need  
And leave me alone

I don't wanna be the hostage anymore  
We both know how it ends and been there before  
I don't wanna be the victim of this pointless game  
Cause over and over it's always the same

And I can't believe  
That I could be so blind  
And let this happen to me  
And I failed to see  
The warning signs  
Telling me what I should have known  
Please just let me go

I don't wanna be the hostage anymore  
We both know how it ends and been there before  
I don't wanna be the victim of this pointless game  
Cause over and over it's always the same

I don't wanna be the hostage  
I don't wanna be just another victim

I'm not your hostage  
Hostage  
Hostage
