

Overdose

Digital Summer

Here we go again, a fatal game where nobody wins
You scream, you cry, you lie and I end up just giving in
God damn how does this keep happening
And god damn look what you're doing to me
You're a drug that I can't help but desire
You're a drug that I wish I could ignore
You're a drug just as deadly as fire
And every time I get burned (I want more)

You're like an overdose with no antidote
I've fallen victim far too many times
Now I'm comatose with nothing to show
Except the damage that you left behind
So I break down, and finally take down
All of the pictures I don't want to remember
And break down, and finally take down
Every reminder of a pretend forever

Here we go again another round this time you're not holding bac
k
I've had enough I'm sick of always being under attack
God damn how did this all fall apart
And god damn were we just doomed from the start
You're a drug that I can't help but desire
You're a drug that I wish I could ignore
You're a drug just as deadly as fire
And every time I get burned (I want more)

I want you, I hate you, I need to forget you
This is the definition of insanity
If I can't stay away you'll be the death of me
