

## Body-Hats (Part One)

Digital Underground

She used to be quick to lick, the trick  
But now she just wanna rub em down

Body-hats, lookin for the Body-Hats  
Lookin for the body-hats! (6x)

Yeah, I took sugar shoppin (yo?) for a body-hat (no!)  
And I found a pack of big blue round ones  
The can't-shut-me-down ones, yeah  
A-rigga-like-me-needin-em-cause-I-get-around ones

Yeah, well here we go, on another show  
Backstage, shnuckas wanna get into the flow  
My woody says yo! He's ready to go  
But, yo, he's gotta wait for the Nose to go

A pretty face and back character  
Maybe cause the chick is brainwashed  
Lost, got your green contacts look fine  
Who'd a thought you need hats for your eyes

around my eyes when I'm rhyming  
The government says you've got to have a glow  
And I swing a tail like Haley's Comet  
No comment? I didn't think so  
I thought flow and there it was

It's just a freestills, meanwills keep the vill's kills in  
Sweat drills in, gurlies in the wheels eatin chills and  
You say you're ready to go? Oh no  
You gotta wait for the Nose to go!

Don't wanna throw a hot booty seven and lose  
So what is the move to keep livin?  
Swimmin in the big balloon, I don't think so  
I ran a body-hat option on the ho

She said lately it just ain't been the same  
So would you kinda just rub me down?

My woody wants to get into the flow  
But I said no, you gotta wait for the Nose to go

Baby really must've been crazy though  
Cause the onion was big and round

Hat is the best known protection against FADES"
