

Yeah, woohoo
There's something in the air
There's something in the air
There's something in the air

Now where has it been?
I mean the good old wild days
Became a bit too lame
Just take a look at my place
It's such a mess
But i'll be outta this space as soon as you tell me
where the night is
You have to set up
Bring it on
Forward!

Yeah, woohoo
There's something in the air
woohoo
There's something in the air
Yeah, woohoo
There's something in the air

It's been quite of a while since I could experience
your brightness
Now you've got a brighter smile and i think I'm going
to like it
Talking 'bout the better things, you know how to
maximize
Everything around you will become supersized
You have to set up
Away from
what matters
And get it prepared
Forward!

Yeah, woohoo
There's something in the air
Woohoo
There's something in the air
Yeah, woohoo
There's something in the air
Yeah, Woohoo
There's something in the air
Woohoo
'Cause I've been dreaming we could be the fire for this
night
Can't stop
You have to set up

We could get so wasted if you would have come
(Bring it on)
We could get so wasted if you would have come
(Forward)
We could get so wasted if you would have come
(Set Up)
We could get so wasted if you would have come

(You have to set up)
We could get so wasted if you would have come
(Bring it on)
We could get so wasted if you would have come
(Forward)
We could get so wasted if you would have come
(Set Up)
We could get so wasted if you would have come
(You have to set up)
