

Watchtress of the road
twist and walk as we go
disappearing with the wind
we are disappearing

My whole life has changed
I won't do those same things
disappearing with the wind
we are disappearing

We can take our time to find a way
when the wolves are howling
you can always find the words to say
when the wolves are howling

Our love will lead us home
we'll never get lost
we'll never get lost

We can take our time to find a way
where the wolves are howling

Oh oh oh oh
when the wolves are howling
the wolves are howling
[2x]

Hard night's on and on
spin and shake as we go
disappearing with the wind
we are disappearing

My eyes ought to blame
they won't see the same things
disappearing with the wind
we are disappearing

We can take our time to find a way
when the wolves are howling
you can always find the words to say
when the wolves are howling

Our love will lead us home
we'll never get lost
we'll never get lost

We can take our time to find a way
where the wolves are howling

Oh oh oh oh
when the wolves are howling
the wolves are howling
[4x]
