

Watchtress of the road  
twist and walk as we go  
disappearing with the wind  
we are disappearing

My whole life has changed  
I won't do those same things  
disappearing with the wind  
we are disappearing

We can take our time to find a way  
when the wolves are howling  
you can always find the words to say  
when the wolves are howling

Our love will lead us home  
we'll never get lost  
we'll never get lost

We can take our time to find a way  
where the wolves are howling

Oh oh oh oh  
when the wolves are howling  
the wolves are howling  
[2x]

Hard night's on and on  
spin and shake as we go  
disappearing with the wind  
we are disappearing

My eyes ought to blame  
they won't see the same things  
disappearing with the wind  
we are disappearing

We can take our time to find a way  
when the wolves are howling  
you can always find the words to say  
when the wolves are howling

Our love will lead us home  
we'll never get lost  
we'll never get lost

We can take our time to find a way  
where the wolves are howling

Oh oh oh oh  
when the wolves are howling  
the wolves are howling  
[4x]
