

Dopamine

DIIV

Shots ringing out, I'm soaking
Eardrums shaking, years start weighin' me down
Calling out from the spiral down
Fixing now to mix the white and brown
Passin' out, runnin' in place
You're the sun and I'm your cloud
Burnin' it down, runnin' in place
Got so high I finally felt like myself

Shots ringing out, I'm soaking
Eardrums shaking, years start weighin' me down
Buried deep in a heroin sleep
Floating deeper underground
Passin' out, runnin' in place
You're the sun and I'm your cloud
Burnin' it down, runnin' in place
Got so high I finally felt like myself

Would you give your 81st year
For a glimpse of heaven, now and here?
Would you give your 60th year
For a glimpse of heaven, now and here?
Would you give your 45th year
For a glimpse of heaven, now and here?
Would you give your 34th year
For a glimpse of heaven, now and here?

Shots ringing out, I'm soaking
Eardrums shaking, years start weighin' me down
Calling out from the spiral down
Fixing now to mix the white and brown
Passin' out, runnin' in place
You're the sun and I'm your cloud
Burnin' it down, runnin' in place
Got so high I finally felt like myself

Shots ringing out, I'm soaking
Eardrums shaking, years start weighin' me down
Buried deep in a heroin sleep
Floating deeper underground
Passin' out, runnin' in place
You're the sun and I'm your cloud
Burnin' it down, runnin' in place
Got so high I finally felt like myself
