

# Hurricane

Dillon Francis

We're in the dark, your eyes like lightning  
The storm in my heart, there's no denying

I love you like a hurricane  
I'll blow your heart away (heart away)  
I love you like a hurricane

I love you like a hurricane

Don't be afraid of love like thunder  
You're all that I see, there is no other  
Up in the clouds, the sparks, they ignite me  
The rain pourin' down, you're all that I see

I love you like a hurricane  
I'll blow your heart away (heart away)  
I love you like a hurricane

I love you like a hurricane

Let me lift you away [6x]

I love you like a hurricane  
I'll blow your heart away (heart away)  
I love you like a hurricane

I love you like a hurricane  
I'll blow your heart away (heart away)  
I love you like a hurricane
