

Evergreen

Dillon

Hollow trees growing beneath
The canopy of stars
Spreading branches towards the blue
Following trails of truth

When they touch and interlock
Light shafts expose their thoughts
Spreading branches towards the blue
Following trails of truth

An evergreen forest
Has been in me, growing

An evergreen forest
Has been in me, growing

When we touch and interlock
Light shafts expose our thoughts
Spreading arms towards the blue
Following trails of truth

An evergreen forest
Has been in me, growing

An evergreen forest
Has been in me, growing
