

## Hell Is Within

Dimension Zero

The longing spreads its solemn wings  
I flew beyond the realms of light  
To bury deep my hellish self  
To cleanse my stains and reap the soul

Fearless - No one is pure  
Timeless \_ I've got no cure

I'm closer to heaven  
I close my eyes  
Hell is within

I heal my cuts an hide my anguish  
Crawling through the precious night  
This is where I must belong  
This is it, prove me wrong

In silence dark the hours haunt  
Reveals this anger from above  
Fear not, is what is said  
Time wont heal, it will just stop
