

# Relinquishment of Spirit and Flesh

Dimmu Borgir

King of tempests and storms  
Lord of innumerable figures and forms  
Blessed with thy cold I am  
As I upon the shoulders of mine  
Bear the burden of Thine

Once I got touched by a fire from beyond  
An invitation to darkness of which I could not resist  
Caressed by the feathers of the fallen  
I took the fate in my hand

My raging Commander  
My constant Shade  
My soul's Persecutor  
My eternal Divinity

Revealing Thy powers in visions and dreams  
Invoking your magic at night  
Honoured I am to mission Thy word  
Within a creed is sworn of majestic might  
An infernal allegiance in which I pay my share  
An unholy awakening inside of which I intend to bear

Beholding Thy commotion  
I entreat You with devotion  
I subsume Your might with strength  
I will carry on with You as my guardian  
Against the lambs of the light

Possesses by the true god of earth I am  
Possessed for eternity
