

## The Invaluable Darkness

Dimmu Borgir

Fear Tomorrow's Adversary  
And the wealth of uprising  
The final storm will be released  
And the unmerciful will erect

Hidden from the eyes of your God  
I will proclaim original sin  
And have you all purged and purified  
From the lies that remain within

Cleansed and draped in sulphur linen  
Black and pure since the Beginning

Mercy is not truth  
Your sins are next to mine  
Mercy is not truth  
All your sins are next to mine

My soul's ablaze  
Inflamed with rage and isolated  
In whirlwinds of hate  
My soul's ablaze  
Yet camouflaged in the haze

Why did He not see this coming?  
Why did He not understand?  
One time forsaken  
But forgotten I am not

I will win this war  
But never the peace  
I am my own free spirit  
Hence I will not rest
