

# Here

Dina Carroll

I convinced myself  
I wasn't in search of love  
It was something I'd only need a little of  
To get by on my own  
Would be easy to do  
Then I found it was easy being loved by you  
Now I know that I can feel this way  
Nothing can wipe this smile off my face  
It was put there with love  
And nothing can take its place

Here's where you love me  
Here's what we've found  
Here's where we wanna be  
With nobody else around  
Here's where you kissed me  
And left me with a smile  
Here's what you give to me  
Right here, right now

Realistic with love  
Is what I am just because  
I was never a fool to want to fall in love  
That was easy to say  
Until I met you  
'Cos no man's loved me the way you do  
Now I know that I'm feeling this way  
And I'm keeping a smile on my face  
Now I know I'm in love  
Nothing can take its place

Here's where you love me  
Here's what we've found  
Here's where we wanna be  
With nobody else around  
Here's where you kissed me  
And left me with a smile  
Here's what you give to me  
Right here, right now

I'm looking at life  
In a whole different way  
You give me good reason  
For feeling this way  
And I wake up knowing every day  
You free my soul  
Do you know you free my soul

Here's where you love me  
Here's what we've found  
Here's where we wanna be  
With nobody else around  
Here's where you kissed me  
And left me with a smile  
Here's what you give to me  
Right here, right now
