

# I Had A Dream

Dina Carroll

Dreaming.....

Only you, only me  
In a room with the crowd  
Only they could not see  
You undressed me  
With those eyes  
They revealed  
It's a matter of time

Here in my mind  
I could feel you kiss me  
I closed my eyes  
And you appeared

I had a dream  
That we had made it in love  
Oh what can I need  
That I can't get enough  
I had a dream  
That you were giving to me  
The kind of love that I need

I had a dream  
That we had made it in love  
Oh what can I need  
That I can't get enough  
I had a dream  
That you were giving to me  
The kind of love that I need

I see you, you see me  
We believe in a world  
Only lovers can see  
How you hold me  
With your charms  
So surreal  
When I'm there in your arms

You on my mind  
Got to feel you near me tonight  
In my mind you reappear

I had a dream  
That we had made it in love  
Oh what can I need  
That I can't get enough  
I had a dream  
That you were giving to me  
The kind of love that I need

Dreaming  
Dreaming now you're loving me

Here in my mind  
I could feel you kiss me  
And I, I closed my eyes

And you appeared

I had a dream  
That we had made it in love  
Oh what can I need  
That I can't get enough  
I had a dream  
That you were giving to me  
The kind of love that I need
