

# One, Two, Three

Dina Carroll

Talk to me.....  
Talk to me baby  
Don't let me out of your sight  
I'm fading away now  
I'm lighter than light  
Turn to me baby  
Singing that same old song  
Tell me you love me only  
Tell me I've got it wrong  
I'll give all I could give  
I'll be all I could be  
To come together  
And we'll make this house our home  
We'd better talk about it  
One - We were meant to be  
Two - It's what you said to me  
Three - Now we've lost our way  
Got to work to make love stay  
One - Now I realise  
Two - It's missing from our eyes  
Three - Never felt such pain  
We need to start again  
So look at me baby  
What's going on in my eyes  
Do you feel for me  
Let's not live a lie  
So smile on me baby  
Bring me back to life again  
Hold me closer now  
Make me believe that this will change  
The other night I dreamed  
Of what it might have been  
Our world's divided  
And I hope that you can see  
We'd better talk about it  
One - We were meant to be  
Two - It's what you said to me  
Three - Now we've lost our way  
Got to work to make love stay  
One - Now I realise  
Two - It's missing from our eyes  
Three - Never felt such pain  
We need to start again  
Before we're over baby  
Where do we go from here  
Whatever happens from now on  
Baby, you'd better talk, you'd better talk to me  
One - Two - Three - Got to work to make love stay  
Got to work now baby  
Got to work now honey  
One - Two - Three - It's missing from your eyes  
We need to start again  
One - We were meant to be  
Two - It's what you said to me  
Three - Now we've lost our way  
Got to work to make love stay  
One - Now I realise

Two - It's missing from our eyes  
Three - Never felt such pain  
We need to start again  
Talk to me
