

# It Could Happen To You

Dinah Washington

Hide your heart from sight  
Lock your dreams at night  
'Cause it could happen to you

Don't count stars  
Or you might stumble  
For someone will drop a sigh,  
And down down down, down you tumble

So keep an eye on spring  
Run when church bells ring  
'Cause it could happen to you

All I did was wonder  
How your arms would be  
Yes something happened to me
