

I got nothing where I've been  
Will you bring me there again?  
No one ever understands  
You won't change to help

I got lost inside a lie  
Every smile, you made it die  
I'm not real and you know why  
Can I run again some more

Can I be there all the time  
Can I stop the wondering why  
Will I crumble, will I fly  
And I've got to make you

Will I be in time to see  
Will it roll all over to me  
Can I fake it just to be  
You know I can't take you on  
On

Built a picture yesterday  
Built a picture of a moment my love  
My love  
My love  
My love

You have time for me again  
But you flatten me instead  
Try to be the things your said  
Like I almost had it

But I don't ever have it all  
And I'm sweating trying to stall  
Til I think I heard a call  
But you're just laughing along  
On  
On  
On

Built a picture yesterday  
Built a picture of a moment my love  
My love  
My love  
My love
