Dinosaur Jr.

Seen enough to eye you
But I've seen to much to try you
It's always weirdness while you
Dig it much too much to fry you
The weirdness flows between us
Anyone can tell to see us
Freak scene just can't believe us
Why can't it just be cool and free us?

Seen enough to eye you

But I've seen to much to try you

It's always weirdness while you

Dig it much too much to fry you

The weirdness flows between us

Anyone can tell to see us

Freak scene just can't believe us

Why can't it just be cool and leave us?

So fucked I can't believe it
If there's a way I wish we'd see it
How could it work just can't conceive it
Oh what a mess, best just to leave it

Sometimes I don't thrill you
Sometimes I think I'll kill you
Just don't let me fuck up will you
'Cause when I need a friend it's still you
