## I Walk for Miles

I walk for miles I came for you Stop for a while I came unglued

Left get me tired What's left to do Left there so tired Won't hold of you

In my state In my loneliness In the only place I wait

I walk for miles I came for you Stop for a while I came unglued

Left get me tired What's left to do Left there so tired Won't hold of you

In my state In my loneliness In the only place I wait

Set my heart is too Set my beats on you

I walk for miles I came for you I walk for miles I came unglued

Left get me tired What's left to do Left there so tired Won't hold of you **Dinosaur Jr.**
