

## I Want You to Know

Dinosaur Jr.

Just got extreme or so it seemed  
I left it clean, found a place to hide  
I loved the place, I took up space  
Forgot to pace and found myself outside  
I want you to know

I left you there, I hid upstairs  
I had to care 'cause you're the one I see  
I looked around, I felt the ground  
A soul not found was hard enough for me  
I want you to know

Hey, did I let it go  
Stay with me, tell me if it shows  
I want you to know

I brought you there, I thought you'd care  
Not to stare, but you just couldn't see  
It's always you, it's always me  
It's always hard for you to set it free  
I want you to know

Hey, you're the one who'd know  
Stay with me, I can't let it go  
Hey, you put it in my head  
Stay and see, you know what you said  
I want you to know
