

Over Your Shoulder

Dinosaur Jr.

Hey, look over your shoulder
Hey, it's me gettin' older
Always thought I should've told you
It's alright, but it's sure gettin' colder
I know you're over my shoulder
I know now you'll get to hold her

You're gone
But it can't be wrong
You're gone
Can't be for long

You walked over my shoulder
You came cause I told you
You thought I knew it was over
All you knew was to hold her

You're gone
It can't be wrong
You're gone
Don't stay for long

You figure this, you don't get to be
I'm wrong, whatever it's still the same
I know it's over your shoulder
I know now you'll get to hold her

When I wake up
And you are gone
When I wake up
I knew all along
When I wake up
And you are gone
When I wake up
I knew all along

You're gone
But it can't be wrong
You're gone
Don't stay too long
You're gone
But it can't be wrong
You're gone
Can't be for long
