

## Born on the Sun

Dio

There's a crack in the rainbow  
There's a hole in the sky  
You believed in something  
Now it's just a lie, yeah

No jokes from the jester  
Not a laugh from the clown  
And your world is upside down, yeah

You can hide in a circle  
It's a way to survive  
Be another number  
At least you'd be alive

Or you can ride with the gypsy  
He can take you to hell  
And the answers screaming  
In a voice you know so well

You - you're made of fire  
Never higher  
You were made to run

You - you're burning higher  
You've got the fire  
You were born on the sun

So take a walk with a wild one  
It's the way that I've found  
You can turn it upside down
