

# Mystery

Dio

Hey! Can you hear me,  
Can you see  
There's a storm on the edge of the sky  
Does it matter?  
Well, it does to me, I can tell you why

You know, when there's thunder, there should be rain  
But it don't always follow the rules, no!  
And is the wise man always right? No! he can play the fool

It's always a Mystery, not what it seems to be  
It's always a Mystery, just like you and me  
Always a Mystery

We are lightning  
We are flame  
And we burn at the touch of a spark  
Well there's fire, but no one sees  
There is only the dark

Just imagine, will you try?  
I can see that you've opened your mind  
Silver linings can disappear, but they always shine

It's always a Mystery, not what it seems to be  
It's always a Mystery, just like you and me  
Always a Mystery

It's always a Mystery  
Not what it seems to be  
Always a Mystery, just like you and me  
It's always a Mystery  
Not what you want to see  
Always a mystery, just like you and me  
Always a Mystery, Always a Mystery  
Not what you want to see  
Always a Mystery, Always a Mystery  
Always a Mystery  
Not what you want to see, just like you and me  
Always a Mystery, Always a Mystery  
Not what you want to see
