

Drop Down Mama

Dion

Darling, there's something I've got to say

Drop down mama let your daddy see
You got something down there that keeps on worryin' me
But my mama don't allow me to fool around
"Son you're too young now some woman might put you down"

Go away from my window stop scratchin' 'round my screen
So evil woman and I know what you mean
And my mama don't allow me to fool around
She's sayin' "Son you're too young now some woman might
put you down" Oh ...

I got three women livin' on the same damn road
One does my, my cookin' my washin' one pays my room and
my board
And my mama don't allow me to fool around
"Son you're too young now some woman might put you down"

I say drop down mama let your daddy see
You got something down there that keeps worryin' me
And my mama don't allow me, me to fool, me to fool around
She's sayin' "Son you're too young now some woman "
"Oh, son you're too young some woman"
"Son you're too young some woman might put you down"
