

## Heaven Help Me

Dion

Heaven help me  
I kissed the lips of an angel  
I tasted the wine from the heavenly vine from above

Heaven help me  
I lost my heart in the halo  
What a surprise  
I find the stars in her eyes  
I'm in love

Well I never thought it would happen to me  
Dreams were all I had in store  
Woah  
It's no wonder why I'm helpless now  
I never met an angel before

Heaven help me  
To keep her love for a lifetime  
For nothing is worth more than true love on earth for an angel

Well, I told you once it never happened to me  
Why don't you know what I had in store  
Woah  
It's no wonder why I'm helpless now  
I never met an angel before

Heaven help me  
I lost my heart in the halo  
What a surprise, I find the stars in her eyes  
I'm in love

Heaven help me (4x)
