Well, I wonder, what's exactly the matter Child you know the time Seemed like an hour Everything had changed

But I hold up my head
Girl, I'm just trying to make you understand
Well now, everybody tell me
Somebody hoodoo'd the hoodoo man

Well now, I buzzed your bell this morning You had your elevator run slow I buzzed your bell in, woman Take me on the third floor

Well, I hold up my head
Girl, I'm just trying to make you understand
Well now, everybody tell me
Somebody hoodoo'd the hoodoo man
